DANIEL FIGUEIREDO PARREIRA ROCHA

has successfully completed the online, non-credit Specialization

Generative AI Leadership & Strategy

The Generative AI Leadership & Strategy Specialization on Coursera is an innovative program designed to empower leaders with the skills needed to harness the full potential of large language models like ChatGPT, revolutionizing leadership strategies and productivity in business and personal life. Throughout the course, participants will learn to pen effective prompts to command these AI systems, unlocking emergent intelligence for remarkable problem-solving capabilities. This training covers a vast spectrum of practical applications, from creating flawless agendas to honing proposal writing, engaging in strategic brainstorming, and navigating intricate HR dynamics.
